Hi Eric-

I edited the document and think it is okay to send in this form, I changed the name and also added a draft watermark.

Let me know if you have any concerns.

Thanks,  
Adrienne

Hello Adrienne,

Attached is the updated draft of the Carver briefing to be sent to other agencies and potentially the public. FYI Ana Macernas (Asst. Director of EJ at DTSC) called me today to talk to me about Carver. Specifically, she was interested in whether I had looked at the Metal recycling facility across the street. I also told her about Robina's concern over equal treatment of EJ communities in regards to PCB's as I believe this is an issue DTSC and US EPA will have to address in the near future. Of course, I deferred technical questions about PCB's and EPA's regulatory responsibility of PCB's to Steve Armann.

Thanks,

-Eric
